PROFILE SUMMARY

Aspiring Data Analyst with a strong foundation in Python (NumPy, Pandas, Matplotlib, Seaborn), SQL, Excel, and Power BI. Skilled in data cleaning, analysis, and visualization to extract meaningful insights from complex datasets. Passionate about transforming raw data into actionable business decisions. Eager to apply analytical thinking and technical skills in a real-world environment through an internship opportunity.

EXPERIENCE & PROJECTS

Netflix Data Analysis Dashboard | Power BI, Data Visualization

- Developed a Power BI dashboard to analyze Netflix movies and TV shows data,
- providing insights on genres, ratings, release trends, and country-wise content
- distribution.

Hotel Bookings Cancellations(Excel)

- Cleaned and preprocessed raw hotel booking dataset by handling missing values and removing duplicates.
- Performed exploratory data analysis to identify key factors affecting booking
- cancellations.

EDUCATION

Bachelor's in Technology CSE(DS)

Current Year: Second Year CGPA: 7.4 / 10

R.C.Patel Institute of tecnology, Shirpur

TECHNICAL SKILLS:

- Python (NumPy, Pandas, Matplotlib, Seaborn)
- SQL (Joins, Aggregations, Subqueries)
- Excel (Pivot Tables, VLOOKUP, Data Cleaning)
- Power BI (Dashboards, Data Visualization)

Core Concepts:

- Data Cleaning , Exploratory Data Analysis (EDA)
- Data Visualization , Basic Statistics

Soft Skills

Communication, Problem Solving , Analytical Thinking

ACHIEVEMENTS

- Solved 1700+ problems on CodeChef, demonstrating strong problem-solving and logical thinking skills.
- Maintained a 165+ day coding streak, showing consistency and discipline in programming.
